

Manual for the Nolan Wiki

Group B – Atanas Komsiyiski ID: 51985145, Aleksandra Nenkova ID:51984461, Darius Dragnea ID:51984000, Reece Tait ID:51982218, Stanislav ID:51985020

Nolan Wiki is an online wiki for reviewing movies directed by Christopher Nolan. It has a complete catalogue of all his films and users can leave as many reviews as they like on any of them. Although the admin does have the rights to delete any content made the user, there is minimal censorship as we believe users can express their honest opinions.

Username	Password
admin	pass
ManBat	ManBat12

MrMovie123	MrMovie123
Movie4Lyfe	Movie4Lyfe
NolanFan123	NolanFan123

Run Instructions:

- Uncompress the contents from the zip file named NolanWiki
- Open the command prompt and navigate the '*NolanWiki* directory and then start the application using the command '*ruby project.rb*'
- Open any browser, preferably Chrome or Firefox, and type in '*localhost:4567*' in the address bar to access the wiki

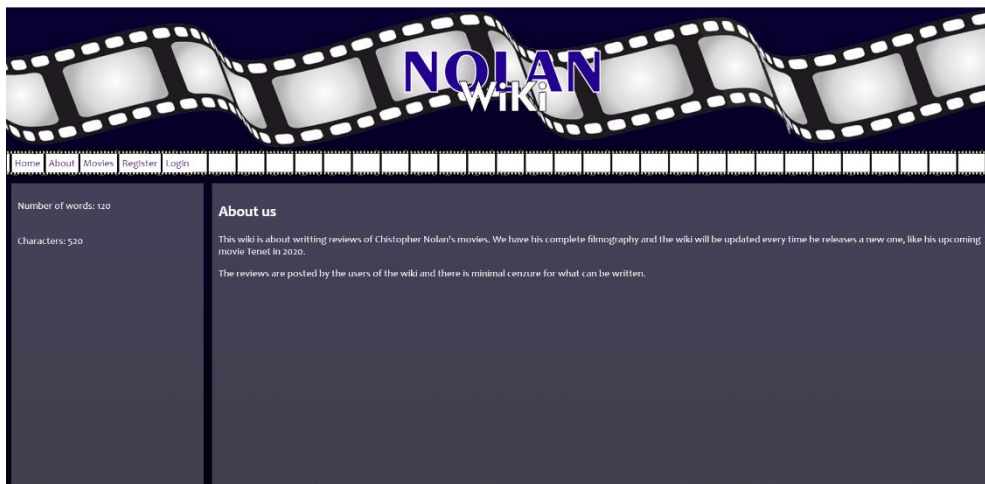

Features:

Main Features:

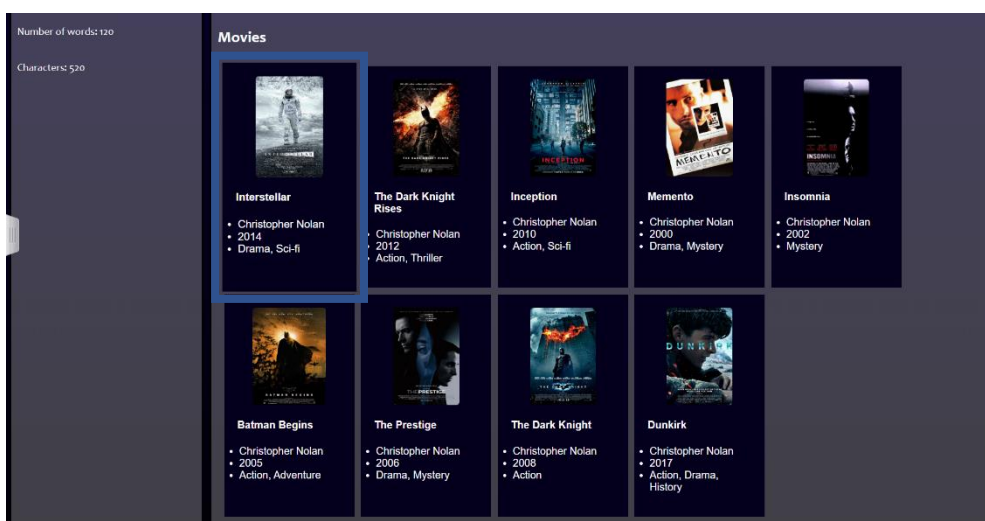

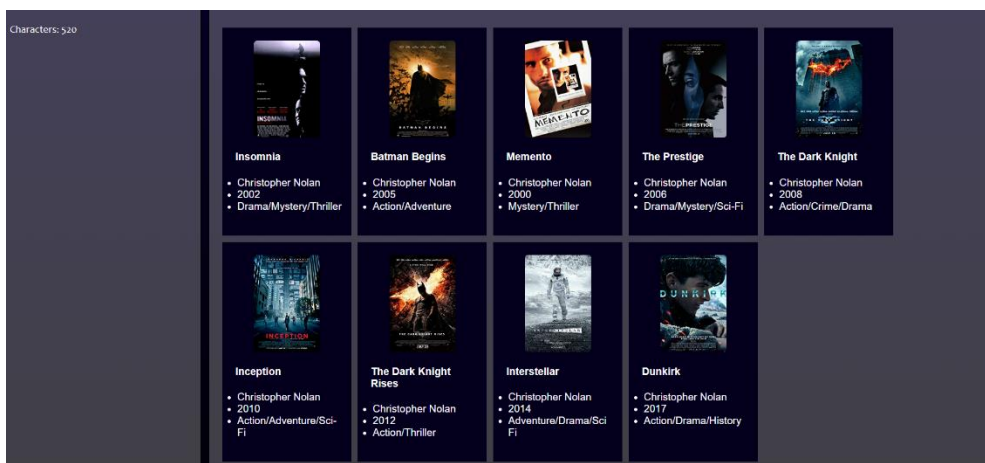

- Home Page – the welcome page of the wiki
 - Word and Character counters – count the words and characters displayed on the Home page

- About Page – A brief description of the wiki

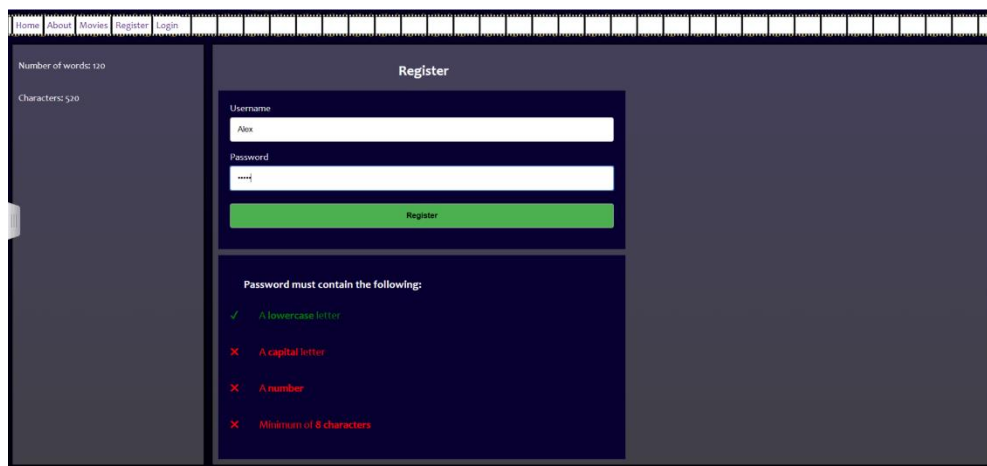

- Movies Page – a catalogue of all movies directed by Christopher Nolan. In order to view a specific movie, click on it and it'll load that page. (See '*Specific Movie Page*' below for more) If you hover over a movie tab, the tab will also expand, letting you know for sure which movie you're selecting.

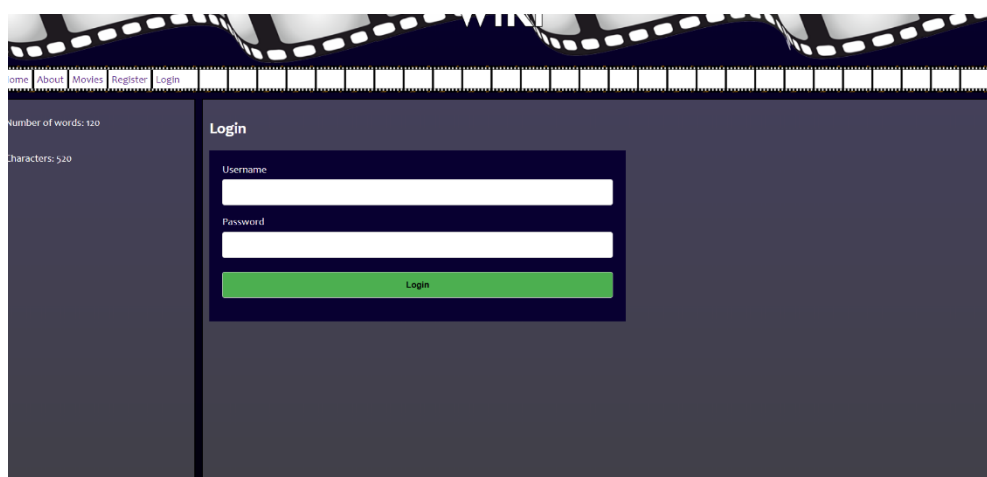

- Specific Movie Page – Displays the information for the specific movie (title, genre, release date, director and poster) and the reviews for it.

- Register Page – Used for creating an account. In order to do that you must chose a username and a password.
 - Password validation form – It doesn't allow the creation of an account until the requirements are fulfilled

- Login Page – Used for accessing a created account. Note that when a user logs on, it records the username and the time and prints them to the "UserLog.txt" file

Admin Features:

- Admin Controls Page – the controls only accessible to the admin
 - User Edit Override – gives the Admin the ability to allow users to edit the Home page information by clicking Allow Edit? button.
 - Ability to delete users – used to delete users by clicking the ‘Delete User?’ button
 - Ability to delete movies – used to delete movies by clicking the ‘Delete Movie?’ button. Note that this will also delete all the reviews link to that movie.

The Dark Knight Rises	The Dark Knight Rises was a perfect sequel to a masterpiece. Christopher Nolan took a different direction and focused more on Bruce Wayne/Batman. This movie is filled with lots of emotions. It has such great characters and of course the dialog is so good. The performances are incredible. It was my most anticipated movie of the century. The more I watch it, the more epic it gets. Personally, I think The Dark Knight Trilogy is the greatest Trilogy of all time and this movie gives the greatest ending of all time in the movie history. I remember seeing it twice and the more I watched it the more respect it earns. Thank you Christopher Nolan, You Sir Are A Master.	admin	Delete Review?

Backup Restore

- Back up feature – Allows the admin to back up the current state of the three tables to individual text files (“Users.txt”, “Movies.txt” and “Reviews.txt”)
- Restore Feature – Allows the admin to restore the state of the three tables to the last backup made.
